DAILY COVID TESTING DIPS

No need to test more than necessary: Ravi

SOHINI GHOSH
AHMEDABAD, OCTOBER 12

GUJARAT HAS scaled down daily testing for Covid-19 this month to fewer than 60,000 samples, even as the numbers across the country are the same as early September, ranging between nine lakh and 11 lakh tests per day. The maximum tests held in Gujarat on a single day is 85,600 on September 17. With the dip in testing, test positivity rate, too, has marginally increased.

Since October 6, the state is testing samples between 51,000 and 52,000 per day, similar to the testing held between August 14 and 18, and thereafter increased testing to fewer than 60,000 samples per day.

Speaking to *The Indian Express*, Principal secretary, health, Jayanti Ravi, said that there was no requirement of testing more than what is necessary. "We look at the severity and (test) positivity (rate) with vacant (hospital) beds, number of calls to 108 (ambulance) and number of calls to 104 (Covid-19 helpline). Depending on these, the testing numbers are decided... we are maintaining a good test per million and we do not see the need to continue with high testing numbers (as before)...," said Ravi.

She said since the "(Covid-19) situation has improved in the state and critical patients are fewer, putting hospitals in

comfortable position", testing more than the existing level of 51,000-52,000 samples a day was not necessary.

From September 1 to 15, daily sample testing ranged between 72,000 and 78,000, which was followed by two days of testing 85,000 samples each. It dropped to 69,000 on September 19 and since then it has seen a further decline, ranging between 60,000 and 62,000. During September 18-22 and September 25-28, the state was consistently reporting over 1,400 cases daily. As of September 28, only 16 ICU beds with ventilators were vacant across the Ahmedabad Municipal Corporation (AMC)-registered private hospitals, indicating high occupancy level in Ahmedabad city. On Monday, the number of cases dropped to less than 1,200 and the casualty rate also steadily declined last week.

In October, the state reported around 1,300 cases each day, with test positivity rate hovering around 2.4 per cent in the past week. In the first week of September, the test positivity rate stood at around 1.7 per cent.

A state health official attributes this marginal increase in test positivity rate and drastic decline in the daily testing rate to the influx of migrant workers that led to targeted testing among specific demography.

"We were deploying wide-spread testing in textile and di-

amond industries in Surat. Initially, these tests itself comprised 4,000-odd tests each day in Surat. Testings were also conducted at checkpoints, construction sites, etc., which have been reduced now. Our testing at hospitals and urban health centres remain the same as before."

This also indicates that the AMC has not continued with the testing drives at construction sites and offices. The number of micro-containment zones declared this month is around 10-odd areas designated each day or fewer.

An AMC health official said, "We have seen a decline in test positivity rate and we have observed that a minimum number of cases are reported from the central and north zone." The official suggested that it may be because of the early infections reported from central and north zones of AMC.

The AMC believes that testing kiosks set up across the city are more popular than UHCs or hospitals. "We realised that people are apprehensive of getting tested at UHCs and hospitals, perhaps of a fear of contracting infection. Kiosks have made it easier."

Ravi added that state-wide, the inhibition or stigma around getting tested or apprehension of contracting infection while waiting in a queue to get tested has "seen a lot of improvement", owing to the health department's campaign and chief minister's slogan of "Test is Best".

1,169 fresh Covid cases, eight deaths in a day

EXPRESS NEWS SERVICE
AHMEDABAD, OCTOBER 12

WITH OVER 1.53 lakh coronavirus cases reported in Gujarat till date, the state witnessed 1,169 fresh cases and eight deaths on Monday, the least in over one-and-a-half months since August 24. Overall, over 1,400 patients were reported as discharged across the state.

Ahmedabad has now crossed 38,000 cases, with 184 persons testing positive on Monday, even as the Ahmedabad Municipal Corporation presently has about 150 areas designated as micro containment zones. Meanwhile, of the 1,891 arriving passengers at the Kalupur railway station in the city on Monday, seven tested positive. This marked one of the least test positivity rates at the site in several weeks.

Among districts with municipal corporation limits, Bhavnagar has shown a steady decline. From reporting 50-odd cases each day in the third week of September, the district reported 15 new cases on Monday.

Seven passengers at Kalupur railway station in Ahmedabad tested positive on Monday

ALLEGED ABDUCTION, RAPE

HC grants compensation to minor whose pregnancy was terminated

EXPRESS NEWS SERVICE
AHMEDABAD, OCTOBER 12

AFTER A division bench of the Gujarat High Court (HC) permitted the termination of a 14-week pregnancy of a 14-year-old girl from Botad in September, who was allegedly kidnapped and raped, the court has stepped in again to ensure that she is paid compensation of Rs 3 lakh under the Victim Compensation Act.

After a division bench of the HC deemed it necessary to provide the survivor with compensation to facilitate her socio-economic rehabilitation, the principal district judge of Bhavnagar decided the compensation amount of Rs 3 lakh based on existing

norms. The same was conveyed and approved by the Gujarat State Legal Services Authority.

In an order dated October 9, the division bench of Justices Sonia Gokani and Nirzar Desai directed that of the total compensation, Rs 1 lakh be deposited in a joint account of the girl and her father and the remaining amount be put in a fixed deposit account, with a view to utilise the latter for her education and rehabilitation once she turns 18 years.

While survivors are usually entitled to compensation upon conviction of the accused when rape is proven, the HC decided to intervene in this case sooner since she was a minor and had to terminate a pregnancy. This indicates sexual intercourse by a mi-

nor, which qualifies as rape.

The parents of the minor had moved a habeas corpus petition before the HC in August, after they had alleged that their child was abducted by a 21-year-old man. A subsequent FIR came to be filed at Botad police station, alleging that the man had raped the minor, but no subsequent action was taken by the police.

The accused was charged under sections 363 (Kidnapping from lawful guardianship) and 366 (Kidnapping a woman under the pretext of marriage, illicit sex, etc) of the Indian Penal Code, as well as under sections eight (Sexual assault) and 12 (Sexual harassment of a child) of the Protection of Children from Sexual Offences Act (POCSO).

Treating Covid patients with diabetes is biggest challenge, says expert

ADITIRAJA
VADODARA, OCTOBER 12

VADODARA CITY crossed 13,000 Covid-19 cases on October 11 even as the administration announced that the city has "overcome the first wave". Six months into the pandemic, medical experts in the city who have been treating Covid-19 infections say that although the virus appears to have toned down in virulence, the biggest challenge is treating persons with diabetes.

Vadodara Covid nodal officer Dr Sheetal Mistry, also an Assistant Professor Surgery at Gujarat Medical Education and Research Society (GMERS)-run Gotri hospital, which has seen close to 6,000 Covid admissions so far, has recommended new standard operating procedures (SOPs) for administering medicines to patients, after his own experience with Covid-19.

Mistry, who got the infection in September along with 10 family members, and has recovered, said the being a diabetic himself gave him a perspective on how the virus acts in the body.

"I had severe cough, body ache, fever, loss of smell and taste. The scans showed about 12% lung involvement and so, I took Remdesivir. I realised that Remdesivir causes severe headache and sedation. I recommend that it should be administered to patients only before bed," Mistry said.

According to Mistry, diabetics are prone to cytokine storms—an excessive inflammatory reaction in the body. "Sitagliptin helps increase the amount of certain natural substances that lower blood sugar and decrease inflammation. We are recommending this for diabetic patients along with Empagliflozin to decrease heart-related complications. I myself did not go into a cytokine storm because of these two medicines and I am recommending it to all diabetes patients."

He said by nature, Covid-19 attaches to ACE2 receptors found in lungs as well as in beta cells of pancreas, kidneys, liver and intestines, and causes system inflammation. "Once you are down with Covid-19, all these organs, where

glucose metabolism takes place, get affected and the sugar levels shoot up," he said.

Warning people against the sense of security provided by false negative results of Rapid Antigen Test (RAT), Mistry said, "We have observed that those who tested negative in RAT become careless. General practitioners who do not know the intricacies of the disease also prescribe antibiotics and wait, wasting time. When they get breathless, they come to the hospital. Rampant use of antibiotics in the time of a pandemic will also disturb the equilibrium as we do not have new antibiotics in the pipeline," Mistry added.

According to a VMC officials, mortality is high among patients with diabetes. "Most diabetics are hypertensive and obese, which has an underlying multi-system inflammation, over the cytokine storm. Gujarat is the diabetes capital as our diet includes lot of sugar, oil and cereals," he said.

Health experts are also observing an emergence of new diabetics after recovering from Covid-19. "Covid-19 is also causing hyperglycemia. I have seen patients who have recovered with normal sugar levels returning a month later with complaints of weakness and frequent urination. They are getting diagnosed as new diabetics. It is possible that Covid-19 is triggering diabetes. These new diabetics are more at risk of secondary infection and other complications," Mistry added.

Health officials say that the number of critical patients has reduced drastically. According to Dr Devesh Patel, VMC medical officer for health, patients with mild and manageable symptoms are opting for home isolation. At present, of the 1,806 active cases in Vadodara, 687 are in home isolation while 684 are in private hospitals.

"This has reduced the number of patients in GMERS and SSG to 148 and 177, respectively. Those who need oxygen support or critical care are getting admitted to the hospital. Now, most of the critical cases are those who neglected their symptoms initially," Patel said.

Vadodara recorded 13,398 Covid-19 cases and 207 deaths till Monday.

Man sentenced in rape case and out on parole held for raping 6-year-old girl

EXPRESS NEWS SERVICE
AHMEDABAD, OCTOBER 12

A 30-YEAR-OLD man who was sentenced to seven years in jail for raping a minor girl in 2014 and out on parole was arrested on Monday for raping a six-year-old girl in an abandoned house in Ahmedabad.

According to police, the accused, who was serving sentence in Sabarmati Central Jail and was on parole for 15 days after the death of his father, abducted the girl and raped her on October 9 night.

The FIR filed on October 10 states that around 8.30 pm on Friday, an unknown man lured two girls — aged six years and seven years — who were playing outside their house, to an abandoned building by offering them with candies and biscuits. While the seven-year-old girl managed to escape, the accused took the other child to the bathroom in the abandoned house and raped her. He has been charged under Indian Penal Code (IPC) sections 376 for rape and 354 for assault on woman, as well as sections of the Protection of Children Against Sexual Offences (POCSO) Act.

"After examining CCTV footage in the area and also on the basis of human intelligence, the investigating team picked up the accused today (Monday) afternoon from his residence. He was earlier convicted for abducting and raping a minor girl," said Milap Patel, Assistant Commissioner of Police, K division, Ahmedabad city.
